

## **Mariah**

My career goal is to return to the Rosebud Sioux Tribe Prosecutor's Office as a Legal Advocate. I want to use my education to advocate for victims of violence, not only in the courtroom but beyond it by providing guidance, support, and empowerment.

My long-term educational goal is to continue my education and earn my master's degree so I can continue to grow and advance in the criminal justice field. Through higher education, I hope to strengthen my ability to advocate for victims of crime and abuse while supporting my community in creating positive change for future generations.
