

Jakob

I am currently pursuing a master's degree in social work at USD. Over the summer I was fortunate enough to get accepted into the Bright (Building Rural Innovation and Growth in Behavioral Health Teams) program through Avera, which aims to add healthcare workers in rural and underserved areas. Getting this scholarship allows me to continue school while working towards licensure hours that will allow me to eventually work with at-risk youth/adults. One day I hope to get the highest level licensures as a social worker and hone my skills as a leader in the healthcare system.
