

Alice

I believe my qualifications for a scholarship are important as it helps me to stay on track of my studies. As I'm very passionate about my education goals in bringing back Lakota language and culture to my community which is something I have always been wanting to do since high school. I also plan to travel to Sinte Gleska for extracurriculars as that's where I'll be taking other classes and being more involved in the culture. Which having this scholarship will help me with other unexpected college expenses.
